

KLARLUND AXEL TOWERS

KLARLUND, AXEL TOWERS, COPENHAGEN, DENMARK.

Klarlund's watch and jewelry store in the impressive Axel Towers in Copenhagen, located opposite Tivoli's main entrance, has—together with the company's main product, watches—inspired the chandelier that creates a striking focal point in the shop. Architectural firm Ole Hagen designed this spectacular chandelier, measuring 260 cm in diameter, which clearly defines the store's main area in a way that is both simple yet unmistakably significant and artistic—almost like a logo.

Photographer: Dorte Krogh, copyright ©.

Material & finish: Chandelier made of a combination of browned brushed and lacquered brass as well as brushed and lacquered aluminum
