

SVENDBORG CITY COUNCIL CHAMBER

SVENDBORG CITY COUNCIL CHAMBER, SVENDBORG, DENMARK

As part of the renovation of Svendborg's historic city council chamber, the existing lighting was supplemented with a new, functional lighting solution.

C&W Architects selected a custom solution featuring the DYBBØL luminaire. These were mounted on an elliptical ring that follows the council chamber's geometric ellipse shape, forming a discreet suspended frame around the original ceiling lighting.

Produkt: Dybbøl Special Ellipse
