BY CARL HANSEN & SØN

PENDANT FRIHAVNSTÅRNET, NORDHAVN, COPENHAGEN

Praksis Arkitekter is behind the extensive transformation of one of the DLG silos in Nordhavn, which has been converted into an 11-story residential building and now stands as a landmark in Copenhagen's new district. The project was awarded the Betonelement Prize in 2017.

For this transformation, Okholm Lighting supplied large outdoor pendants that appear simple yet innovative. The pendants feature a sleek, conical high-format lamp housing, complementing the building's tall concrete walls and giving the covered areas a distinct character.

The PENDANT FRIHAVNSTÅRNET is a large, modern, and architecturally designed pendant for outdoor spaces, such as passages and covered areas, where it discreetly and decoratively illuminates the mounting surface, enhancing the spatial experience. The conical lamp housing integrates well into modern architecture, harmonizing with colonnaded walkways and reinforcing the architectural language.

Photo: Jens Lindhe

Product: PENDANT FRIHAVNSTÅRNET
Material & finish: Steel - powder coated with white structure (RAL 9010) - varnished golden inside
Dimension: Conical lamphouse ø350/ø500 x 1280 mm and 2440 mm suspension pipes
Light sources: Downlight: 25 W spot. Uplight: 3 pcs. 3 W mini-spots
Lighting technology: The pendant provides a warm downward-directed light through the golden inner reflector. The uplight helps enhance the spatial perception of the outdoor area and creates a beautiful effect on the ceiling surface.
Suspension: Mounted with suspension pipes on a special ceiling bracket

Safety classifications: I.
Ingress protection: IP65
Approval: CE
Design: Praksis Arkitekter
