BY CARL HANSEN & SØN

THE PARLIAMENT CHAMBER LOGES, CHRISTIANSBORG, KØBENHAVN, DANMARK

In cooperation with Gunver Hansen's Tegnestue, Okholm Lighting has produced three large LED chandeliers of brass for the Danish parliament. The chandeliers provide an optimal level of illumination and binds the areas together into one whole.

The chandeliers fit the interior with the fine wood panels and the original wall lamps of brass. The lighting can be adjusted via DALI, which makes it possible to control the light in relation to the daylight conditions and other functions.

Material & finish: Polished and lacquered brass. Prismatic shielding down and opal shielding up
Dimension: Respectively ø1 meter and ø1,3 meter
Light sources: Colour temperature with high colour rendering. Ø1 meter ring: 119 W, 230 V. Ø1,3 meter ring: 152 W, 230 V
Suspension: Mounted 7 cm below the ceiling with special fittings
Safety classifications: III.
Approval: CE
Notes: Up- and downlights can be dimmed separately via DALI control
Design: Gunver Hansens Tegnestue. Photo: Gunver Hansen
