

STADTWERKE NORDERSTEDT, NORDERSTEDT, GERMANY

Stadtwerke Norderstedt is a municipal utility company in Norderstedt, a city near Hamburg. The company provides a wide range of utility services, including electricity, natural gas, district heating, drinking water, and telecommunications. It places a strong emphasis on sustainability and environmentally friendly solutions, including energy production from renewable sources.

Additionally, it manages public facilities such as swimming pools and leisure centers, contributing to the city's infrastructure and the quality of life for its citizens. The headquarters, also known as Neues Stadthaus, was designed by the architecture firm [RKW Architektur](#), based in Düsseldorf. The lighting design was developed by a dedicated team, with a focus on energy efficiency and user experience.

Advanced LED solutions were implemented, with luminaires featuring dynamic lighting, developed and produced by Okholm Lighting. The design consists of luminaires in quarter- and half-circle configurations, arranged in the open ceiling space in a pattern radiating outward in concentric circles. These are complemented by linear luminaires. The luminaires are made of brushed aluminum and all provide downward-directed lighting.

Produkt: LED Quarter Rings and Linear Luminaires. Human-Centric Lighting

Material & finish: Brushed Aluminum

Lysteknik: Downward-Directed Light, Opal Acrylic Diffuser

Design: Ulrike Brandt Licht
