

## CARROUSEL CHANDELIER

The Carrousel Chandelier was designed by Marianne Tuxen to illuminate the beautiful dining hall of Hornbækhus. The chandelier draws inspiration from the motion of a carousel swing, spinning gracefully, which also inspired its name. The arms extend outward from the center, each ending with a candle-like light source.

With its classic and minimalist look, the Carrousel Chandelier is perfectly suited for banquet halls, dining spaces, and entrance areas—a decorative lighting solution that seamlessly fits into a variety of environments.

Two words define the chandelier: it is both retro and modern, giving it a truly timeless expression. Its sleek design and inherent charm enhance the aesthetic character of any space.

Crafted from polished brass, the chandelier is available in sizes ranging from 3 to 7 candles. The suspension is made from polished brass tubing, with the length customized to individual requirements.

**Produkt:** CARROUSEL

**Material & finish:** Brass, polished and unlacquered. Mouthblown opal glass shades

**Dimension:** Ø130 cm, H: 50 cm, 7 arms + shades

**Light sources:** 7 pcs. E27

**Lysteknik:** The chandelier is designed for high installations. The concave glass shades with their opalized surface provide a soft and pleasant light, while the shape of the shade minimizes glare discomfort.

**Suspension:** Pendant tubes

**Safety classifications:** I

**Ingress protection:** IP20

**Approval:** CE

**Remark:** The chandelier is also available with 3 and 5 arms.

**Design:** Marianne Tuxen

**Latest update:** 28/02-2025
