

SORØ AKADEMI

SORØ AKADEMI. PENDANTS. SORØ, DANMARK

In connection with the objection to the renovation of Sorø Academy, which [Rønnow Architects](#) has been responsible for, the lighting has been upgraded and supplemented with new reproductions.

The existing pendants, originally designed by architect Karsten Rønnow, have been upgraded with new LED technology, and panic lighting is also integrated into the commuters. The new reproductions are of course also manufactured with new LED technology and integrated panic lighting.
