The HJW38 Opala Pendant Mini was designed by Hans J. Wegner in 1973 as part of a larger lighting series created for Hotel Scandinavia in Copenhagen.
The series features a bold, almost futuristic expression — with gently tilted shades and clean, linear forms.

The Opala pendant features an opal acrylic shade with a painted aluminium top, emitting a pleasant light while softly illuminating the surrounding space through the white shade.
The pendant comes with a standard ceiling canopy and a fabric-covered cord.
