

BT1091 CONFETTI PENDANTS

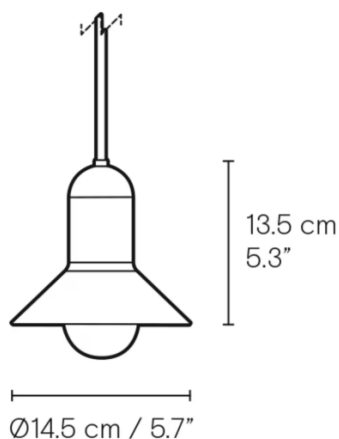

The BT1091 Confetti Pendants were designed by Claus Bonderup and Torsten Thorup. The prolific Danish designers created the double pendant as part of a series of three geometric lamps, completed in the early 1970s.

The Confetti pendants are available in brushed brass and powder-coated steel, and feature simple, cone-shaped shades that complement the other two pendants in the series. All three lamps are fitted with mirrored-top bulbs, which Bonderup and Thorup used to create a dynamic interplay between light and shadow.
