

MO330 PENDANT

The M0330 Pendant is part of an exquisitely minimalist lighting series, designed to bring a sense of calm and warmth — inspired by the comfort that light brings to the human experience, especially during the dark months of winter.

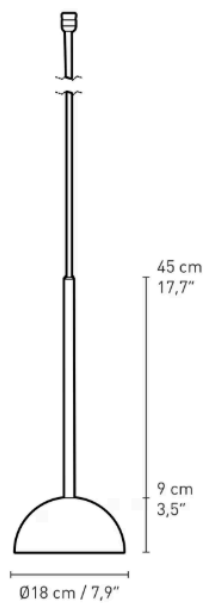

Danish designer Mads Odgård has chosen to focus on two simple and familiar shapes: the hemisphere and the cylinder — forms with a clear, logical connection to natural light.

The series is geometrically minimalist, with a strong emphasis on function and visual comfort.

The pendant's design language makes it highly adaptable to a wide range of applications — in both residential and professional settings.
