BY CARL HANSEN & SØN

The HJW01 Opala Table Lamp Mini was designed by Hans J. Wegner in 1973 as part of a larger lighting series created for Hotel Scandinavia in Copenhagen.
The series features a bold, almost futuristic aesthetic — with subtly tilted shades and clean, linear forms.

The Opala Table Lamp is characterised by its asymmetrical opal acrylic shade and a painted aluminium top plate.
It emits a pleasant, focused light downward while softly illuminating the surrounding space through the shade.

Suitable for both office and living spaces.
The lamp is also available in a larger version.
