

SCAN CEILING W/ STRAIGHT SHADE. E14

SCAN CEILING WITH STRAIGHT SHADE. E14

The SCAN CEILING is a minimalist ceiling lamp available with two shade variants: straight and arc shade.

Its minimalist design makes it highly suitable for repetitive installations. SCAN CEILING is versatile and can be mounted effectively at various installation heights.

The minimalist design allows it to integrate seamlessly into all types of architectural environments. It is particularly well-suited for repetitive installations.

SCAN CEILING is also available in several finishes, including patinated, white-lacquered, and black. Shades can also be customized in different variations.

The SCAN CEILING is also available as a pendant variant. See under PENDANTS.

Produkt: SCAN CEILING W/STRAIGHT SHADE. E14

Material & finish: Lacquered brass - polished or matt.

Dimension: Shade: Ø11.5 cm.

Light sources: Socket/holder: E14. Wattage: Max 60 W. 230V

Lysteknik: The fixture creates a downward lighting effect through the small shade. The light source is unshielded, and dimming is therefore recommended. The two shade variants, curved and straight, produce a decorative effect around the fixture.

Safety classifications: I.

Ingress protection: IP20.

Approval: CE-marking

Remark: SCAN CEILING is also available as a pendant. See under PENDANTS. Other material versions are available upon request.

Design: Okholm Lighting
