

T-line 130

T-line 130

T-LINE 130 is a new linear system for wall mounting. Available in standard sizes or customer specific sizes with inner connections and 90- degree corner connections. The armature consists of an asymmetrical profile of polycarbonate, where a T5 light is integrated. The profile is shielded with a bent, extruded aluminum profile, in which coloured lights can be integrated. The armature is available with direct, indirect or both direct and indirect lighting.

The pictures are from the Danish Parliament's new visitor entrance.

Dimension: Standard lengths (mm): 600 (14-24W), 900 (21-39W), 1.200 (28-54W). Height: 130mm. Depth: 82mm.
