

WALL LIGHT 98 INDOOR

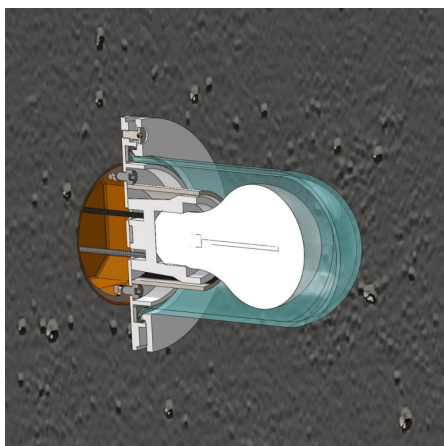

WALL LAMP 98 INDOOR

The WALL LAMP 98 INDOOR is a minimalist and modern version of NYMØLLE WALL. It is well-suited for entrance areas, niches, and walkways, providing both effect and orientation lighting. It is also ideal for mirror lighting and can be mounted directly on a PL junction box, as well as on ceilings.

The WALL LAMP 98 INDOOR features an opal glass cylinder, which ensures comfortable and glare-free illumination. It is highly recommended for mirror lighting, as its diffused light provides shadow-free illumination of the face, making it ideal for make-up application or shaving.

WALL LAMP 98 INDOOR is also available in an outdoor version. See OUTDOOR LIGHTING.
