

SCHELENBORG WALL W/ ARM

SCHELENBORG WALL WITH ARM

The SCHELENBORG WALL WITH ARM is a variation of the SCHELENBORG WALL TOP-MOUNTED, designed in a classic style by [ERIK architects](#). This model is crafted from copper and clear glass, making it highly decorative. Over time, the copper develops a natural patina, allowing the luminaire to blend harmoniously into its surroundings.

It is particularly well suited for historic buildings but is also an excellent choice for corporate buildings, hotels, and restaurants where a distinctive lighting solution is desired.

The luminaire provides excellent illumination through the clear glass, ensuring that the entire entrance area is well-lit. A key advantage is that it not only illuminates arriving guests but also enhances visibility for those welcoming them.

Produkt: SCHELENBORG WALL W/ ARM

Material & finish: Copper and clear glass.

Dimension: Total height: 348 mm. Shade: 314 mm x 314 mm. Bottom: 100 mm x 100 mm. Length of wall arm: 266 mm.

Light sources: 1 outdoor lamp. Socket/holder: E27. Wattage: Max. 60 W. 230V.

Lighting technology: The wall luminaire is mounted on a wall arm, ensuring distance from the wall. The clear glass in the luminaire housing provides a 360° light emission, effectively illuminating the entrance area.

Suspension: Mounted directly on the wall. Connection: 2x2.5 terminal block + grounding terminal. Concealed or surface-mounted installation.

Safety classifications: I.

Ingress protection: IP23.

Approval: CE-marking

Design: ERIK arkitekter
