SCHELENBORG WALL LUMINAIRE W/O ARM

The SCHELENBORG wall luminaire w/o arm was designed by ERIK architects studio. It is available in three versions: a top-mounted arm version, a copper-arm version, and this wall-mounted version.

The SCHELENBORG WALL is a classically designed wall luminaire, ideal for historic buildings.

It provides a decorative 180° light emission, enhancing the atmosphere by illuminating both the area around the luminaire and the mounting surface in an elegant way. Additionally, the wall luminaire ensures effective illumination of the area in front of the entrance or installation site.

Product: SCHELENBORG WALL W/O ARM
Material & finish: Copper and clear glass.
Dimension: Total height 254 mm. Shade: 320 mm x 200 mm. Bottom 130 mm x 100 mm.
Light sources: 1 outdoor lamp. Socket/holder: E27. 230V. Wattage: Max. 60 W. 230 V.
Lighting technology: The wall luminaire is mounted directly on the wall. The luminaire housing features glass on all sides and the bottom, allowing a direct view of the light source. The luminaire emits 180° illumination as well as downward light, as the bottom has been replaced with a glass plate. This creates a decorative and impactful illumination of the mounting surface.
Suspension: Mounted directly on the wall. Connection: 2x2.5 terminal block + grounding terminal. Concealed or surface-mounted installation.
Safety classifications: I.
Ingress protection: IP23.
Approval: CE-marking.
Notes: Bottom is made of glass.
Design: ERIK archiects
