NYMOELLE OUTDOOR

The NYMOELLE OUTDOOR is a simple wall-mounted luminaire with a classic industrial design, offering versatile applications such as entrance areas, niches, and small passageways. It can be used both as orientation lighting and decorative illumination.

This luminaire is suitable for both historic buildings and modern architecture.

The NYMOELLE WALL can also serve as a combined effect and orientation light in basements, carports, covered terraces, entrance areas, and more. Additionally, NYMOELLE OUTDOOR is splash-proof, making it ideal for indoor use in damp areas.

NYMOELLE OUTDOOR can be installed in brickwork, lightweight concrete, plaster, or wooden walls.

The NYMOELLE WALL is also available for indoor installation. See NYMOELLE INDOOR.

Product: NYMOELLE OUTDOOR
Material & finish: Stainless steel, copper or white lacquered
Dimension: Largest diameter:ø112mm. Largest projection:125mm. Installation depth: 57 mm Diameter of the recessed lighting fitting: ø105 mm
Light sources: Socket/holder: E27. Wattage: Max. 60 W. 230 V
